Wall mount brackets fit standard 5 or 10 way shelves

## LED Smartlight 06 Cap Lamp

1.23kg complete

- LED lamp - no bulbs to replace.
- LP1/OLD Charger module can operate from existing charger rack.
- Complete lamp is IP65 weatherproof.
- 12 hour use, will fully recharge in 10 hours.
- Emergency LED in battery pack, automatically switches on if headpiece cable is damaged.
- Push button switching - no knob to break.
- Emergency LED switches on when battery reaches critical level with 1 hour charge remaining.
- Battery level continuously displayed.
- Adjustable headpiece can pivot through 40 degrees (excellent for wide brim hard hats).

### Charger:

- Lamp can be locked into charger to ensure allocated lamps remain unused by other personnel.
- Smart charger gives status of charge parameters/cycles used, etc, these can be downloaded to an Excel file.
- Charger can be retrofitted to existing lead acid charger.
- Lamp will operate over 800 cycles, (approx 3 1/2 years).
- Will fully recharge in 10 hours.
